of the one part, and

THE REPUBLIC OF CHILE, hereinafter referred to as ‘Chile’,

of the other part,

together referred to hereinafter as ‘the Parties’,

RECOGNISING their longstanding and strong trade partnership based on the common principles and values reflected in the Agreement establishing an association between the European Community and its Member States, of the one part, and the Republic of Chile, of the other part;

RESOLVED to contribute to the development and expansion of their organic sectors by creating new export opportunities;

DETERMINED to foster trade in organic products and convinced that this Agreement will facilitate trade of organically grown and produced products between the Parties;

SEEKING to achieve a high level of respect of the principles of organic production rules, of guarantee of the control systems and of integrity of organic products;

COMMITTED to enhance regulatory cooperation on issues related to organic production;

RECOGNISING the importance of reciprocity and transparency in international trade for the benefit of all stakeholders;

NOTING that permanent confidence in the continued reliability of the other Party’s assessment procedures and control system is an essential element of such an acceptance of equivalency;

BUILDING on their respective rights and obligations under the Agreement establishing the World Trade Organization and other multilateral, regional and bilateral agreements and arrangements to which they are a party;

HAVE AGREED AS FOLLOWS:

Article 1

Purpose

The purpose of this Agreement is to foster trade in organically produced agricultural products and foodstuffs between the Union and Chile, in accordance with the principles of non-discrimination and reciprocity.

Article 2

Definitions

For the purposes of this Agreement, the following definitions shall apply:

- (1) 'Equivalence' means the capability of different laws and regulations, inspection and certification systems to meet the same objectives.
- (2) 'Competent authority' means an official agency having jurisdiction on the laws and regulations listed in Annex III or in Annex IV, responsible for the implementation of this Agreement.

2. With respect to the products listed in Annex II, Chile recognises the laws and regulations of the Union listed in Annex III as equivalent to its laws and regulations as listed in Annex IV.
3. In case of modification, revocation or replacement of, or addition to, the laws and regulations listed in Annex III or in Annex IV, the new rules shall be considered equivalent to the other Party's rules unless the other Party objects in accordance with the procedure set out in paragraph 4.
4. If a Party considers that the laws, regulations or administrative procedures and practices of the other Party do not meet any more the requirements for equivalence, it shall issue a reasoned request to the other Party to amend the relevant law, regulation or administrative procedure and practice and provide an adequate time frame, which shall not be less than three months, for ensuring equivalence. If, following the expiry of this period, the Party concerned still considers that the requirements for equivalence are not met, it may unilaterally suspend the recognition of equivalence of the laws and regulations listed in Annex III or in Annex IV as regards the products concerned listed in Annex I or in Annex II.
5. A decision to unilaterally suspend the recognition of equivalence of the laws and regulations listed in Annex III or in Annex IV as regards the products concerned listed in Annex I or in Annex II may also be taken, following the expiry of a notice

period of three months, when one Party has not provided the information required under Article 6 or does not agree that a peer review is conducted under Article 7.

6. With respect to products not listed in Annex I and in Annex II, equivalence shall be examined at the request of one Party by the Joint Committee established in Article 8(1) in accordance with Article 8(3)(b).

3. Each Party recognises the control authorities or control bodies indicated by the other Party as responsible to perform the relevant controls as regards organic products covered by the recognition of equivalence as referred to in Article 3 and to issue the certificate of inspection as referred to in paragraphs 1 and 2 with a view to their importing into and placing on the market in the territory of the other Party.

The importing Party, in cooperation with the other Party, shall attribute code numbers to each relevant control authority and control body indicated by the other Party.

Article 5

1. Products imported from one Party by the other Party in accordance with this Agreement shall meet the requirements on labelling set out in the laws and regulations of the other Party as listed in Annex III and in Annex IV. Those products may bear the Union's organic logo, the Chilean organic logo, or both logos, as set out in the relevant laws and regulations, provided that they comply with the labelling requirements for the respective logo or for both logos.
2. The Parties undertake to avoid any misuse of the terms referring to organic production, their derivatives or diminutives, such as 'bio' and 'eco' in relation to products that are covered by the recognition of equivalence referred to in Article 3.
3. The Parties undertake to protect the Union's organic logo and the Chilean organic logo set out in the relevant laws and regulations against any misuse or imitation.
