

Executive Summary

**Opinion of the Romanian Chamber of Deputies on the
Communication from the Commission to the European Parliament, the
European Council, the Council, the European Economic and Social
Committee and the Committee of the Regions
Artificial Intelligence for Europe
COM(2018) 237**

The Chamber of Deputies supports the initiatives of the European Commission on artificial intelligence, with a series of observations and recommendations, among which: extending the experience of farms using artificial intelligence in as many regions of the Union; ensuring a fair distribution over the EU of services and products integrating artificial intelligence technologies; reducing bureaucracy and encouraging strongly innovative ideas through “Horizon 2020” programme; mobilising the European Fund for Strategic Investment for stimulating private investments towards developing artificial intelligence; adopting measures to mitigate the negative impact of artificial intelligence over the society in general.
