3rd June 2008

Dear Mr Lequiller, dear Mr. Haenel,

In view of the latest developments in Turkey and their effects on the country's accession process, especially following the decision of the Turkish Constitutional Court for the dissolution of the governing party, the Cyprus Delegation to COSAC would like to propose that the following subject be considered for inclusion as a separate matter for discussion on the agenda of the upcoming meeting of COSAC:

"The latest developments in Turkey and their effects on the country's accession process especially following the decision of the Turkish Constitutional Court for the dissolution of the governing party, coupled with a prohibition in participation in politics of important members of the said party including the President of the Republic and the Prime Minister."

I shall look forward to your favourable reply concerning the above request.

Sincerely yours,

Nicos Cleanthous
Chairman
Parliamentary Committee on European Affairs
