

**Written question by MEP Patrick Breyer**

1. How many and which hosting service providers (please list names) are systematically or mostly refusing to remove terrorist content referred to them by or via Europol?
2. For each year since 2015, how many pieces of terrorist content did the Europol Internet Referral Unit refer to online platforms for removal (please answer separately for each year)?
3. For each year since 2015, how often did national authorities refer terrorist content to online platforms via the EU IRU technical solution (please answer separately for each year and each participating Member State)?
